

## **Teacher Classroom Management Tools Go High Tech**

*High Tech Solutions Give Instant Help to Teachers with Classroom Management Problems. Youth Change Workshops (<http://www.youthchg.com>) announces the release of instant, technologically advanced solutions for teachers facing severe classroom management problems from out-of-control students.*

January 28, 2006 (FPRC) -- High Tech Solutions Give Instant Help to Teachers with Classroom Management Problems. Youth Change's new line of instant download ebooks can be purchased and in use within two to three minutes. Each ebook provides ready-to-use, new methods for teachers to use to prevent or stop classroom management problems. The ebooks are designed to work when conventional approaches are ineffective.

Among the new titles shown on Youth Change's site at <http://www.youthchg.com/teachers.html>: "Behavior Change Handouts: Becoming a Motivated and Prepared Student," "The Quickest Kid Fixer-Uppers," and "All the Best Answers for the Worst Kid Problems: Maximum-Strength Motivation-Makers."

Youth Change has also released as an ebook "All the Best Answers for the Worst Kid Problems: Conduct Disorders" which provides help to teachers struggling with the most severely defiant and difficult students.

The new ebooks feature stories, cartoons, quizzes, methods and worksheets that are intended to be more compelling and varied than conventional approaches. The ebooks actually help teachers train youngsters to be motivated, successful students with appropriate classroom and community behavior.

The company believes that these ebooks will help teachers "whose training prepared them to work with Beaver Clever, but ended up working with students who more closely resemble Beavis and Butthead."

Youth Change annually trains hundreds of teachers, and created the new ebooks in response for teachers complaints that classroom management problems continued unabated. Teachers complained of being hit, demeaned, ignored and defied. The new ebooks can begin offering relief in an average of 2-3 minutes, depending on the speed of the teachers computer and internet connection.
