February 28, 2006 (FPRC) -- Zeno the first FDA approved medical device designed for the at home treatment of acne pimples. Zeno effectively treats acne by applying a precise low level amount of heat to acne blemishes, killing the p.acnes bacteria responsible for causing acne blemishes. Zeno is a handheld, portable electronic device that is clinically proven to make pimples disappear fast. In fact, for treating acne pimples, Zeno is the most scientifically advanced and effective acne device available without a prescription. Zeno is designed for people with mild to moderate acne. Each acne blemish should be treated for 2 ½ minutes, two to three times throughout the course of a 24 hour period for best results. "I'm very excited about offering free shipping on all Zeno Acne Clearing Device orders over \$75. This now makes the Zeno Device even more attractive to purchase, being customers do not have to pay shipping fees," said Cory D. Bridgewater.

AcneClearingDevice.com is poised to become one of the nations leading online retailers of the Zeno Acne Clearing Device. AcneClearingDevice.com was launched so consumers could visit one location on the web to learn more about the Zeno Device as well and make their purchase once all their questions were answered. Since its launch in early 2006, AcneClearingDevice.com has had tremendous success in their pursuit to help educate consumers on the Zeno Acne Clearing Device.
