

Money Casino Introduces Spanish Version: Say Hola to Casino Dinero!

www.Money-Casino.com now offers Spanish language website, registration and games

April 16, 2006 (FPRC) -- Money Casino announces the launch of its Spanish language version Casino Dinero. The mission of Casino Dinero (<http://www.money-casino.com/Spanish>) is to provide the Spanish speaking player a fully localized and user-friendly gaming experience. All the elements featured on Money Casino and every stage of the process of play are now available in Spanish, including the website, the sign up form, and all the games featured on the software.

Money Casino's Casino Dinero provides essential information for Spanish speaking new players who are making their first steps in the casino, including games guides, banking details, instructions on getting started, software usage, privacy policy, and conditions of use. This helpful information has proven itself very needed as the growing number of Spanish speakers who lately joined Money Casino demonstrates.

Affiliate members and prospective partners are welcome to benefit from Money Casino's newly targeted market. Banners and additional promotional material in Spanish will soon be available on <http://www.money-casino.com/Webmasters/index.html> and Casino Dinero's webmasters page.
