

The Secrets Behind the Cabin Crew Selection Process Finally Revealed!

For many people, becoming cabin crew is a dream, a dream that only 10% of those who apply will fulfil. This problem exists because there are so many unanswered questions surrounding the cabin crew selection process, until now...

August 21, 2006 (FPRC) -- Caitlyn Rogers has finally broken this tradition of the unknown and unexpected by bringing you 'The Cabin Crew Interview Made Easy'. The book focuses exclusively on guiding candidates through the entire interview process from the initial application procedure, group assessment through to the final interview.

Caitlyn Rogers also reveals the best kept secret behind the selection process, the reason why a large number of applicants are unsuccessful within the first 5 minutes of attending the group interview. This revelation is accompanied by hints and tips on how to avoid this common outcome.

And that's just the tip of the iceberg... Inside, candidates will also be provided with over 300 of the most commonly asked questions followed by full length detailed sample answers that have been specifically designed for the Cabin Crew interview.

After reading this guidebook, candidates will be much more aware of what exactly interviewers are seeking in an applicant and how they can demonstrate both the desired traits and skills to win themselves the job.

The information that has been included within 'The Cabin Crew Interview Made Easy' is tried, tested and proven by Caitlyn herself. The book is the final result of more than 3 years of extensive research alongside Caitlyn's own personal cabin crew interview experiences.

Since publication, 'The Cabin Crew Interview Made Easy' has taken the industry by storm and since this time, there has been a big demand for the information coupled with high reported success rates from readers.

A copy of this 206 page book can be obtained at www.amazon.co.uk, www.cabincrewinterview.com and direct from the publishers for £29.99 plus shipping. Satisfaction is guaranteed.
