

The Secrets of Wealth Creation – Exposed By The Carpenter And The Disk-Jockey!

For those looking for financial freedom or watching the value of their pension shrink, find out how the Carpenter and the Disk-Jockey changed their lives with simple wealth creation strategies, at the free LogicL International Wealth Creation Summit in London UK on Saturday & Sunday November 4 & 5, 2006 and Miami, Florida, on November 28 & 29, 2006.

London, UK, October 24, 2006 (FPRC) -- People seeking financial freedom and wanting to escape the 'rat race' need to make their way to London for a life-changing event. Why? Because LogicL International is launching its new web-based 'Webucation' program globally at its Wealth Creation Summit in London on the weekend of November 4 & 5.

The Summits are free to the first 400 sign-ups and will reveal the simple wealth-generating strategies used by the mega-rich – but which work for anyone, even if they have zero assets to start with. Wealth seekers who would like to see their net worth rocket in the coming years can sign up for the event online at <http://www.logiclwealth.com>.

Brainchild of Australian wealth creation guru Warren Borsje, LogicL International grew out of his own rapid success in building a million-pound property portfolio and passive income in just 3 years. But it wasn't always so!

Borsje tells us, "I left school at 16 in Australia and worked on the breadline as a Carpenter! I quickly realised that wouldn't make me rich, so I studied how the mega-wealthy like Donald Trump built wealth through property and the stock market. It really turned my life around and within a few years I'd built a big property portfolio and a significant passive income, too!"

Jarl Moe, Managing Director and co-founder of LogicL International adds "even wealthy people are seeing the value of their current finances eroded and are wondering how they will cope when they reach retirement. We show people how to build wealth and financial freedom in as little as 24 months, even if they have little cash and few assets now".

Moe, a former Norwegian Disk Jockey, says he saw the light when he realized that his idol, Robby Williams, only needed to record a song once and then enjoy the passive income that royalties gave him over and over again!

Borsje and Moe set up the LogicL system to help others create wealth. Since LogicL launched on-line in the UK in Summer, around 5,000 people have joined and the system is sweeping the Internet like wildfire!

LogicL International will now launch as a global on-line system, complete with a powerful new website, at the LogicL Summit in London on November 4 & 5.

LogicL launches in the USA at Miami on November 28 & 29 and will then roll-out worldwide. Experienced Network Marketers interested in leading the US and worldwide roll-outs as LogicL International Associates, Regional Managers and Country Managers should register at

<http://www.logiclaffiliate.com> from 1st November.

Key speakers at the London summit include – for the first time in the UK – two well-known Marketing and Network Sales specialists from the USA, Jonny Wimbrey and Patrick Powers, together with a further Mystery Guest to be announced shortly. This high-powered trio will show Summit Delegates how to overcome their reservations and obstacles and go from rags to riches in months, using the LogicL system and their new knowledge.

Also presenting at the Summit are Nick Halik – a zero-to-multi-millionaire Stock Trader who is now fulfilling his lifetime dream by training as an Astronaut at his own expense – and Terry Allen, a former Policeman, who tells us “they laughed when I said I was leaving the police service to become a millionaire instead...now I have a multi-million pound property portfolio and a passive income as well”.

Allan has since set up his own Property Company, which grew out of his own rapid success in building a million-pound property portfolio in just two years using the LogicL System. He will show Delegates to the Summit exactly how they, too, can do for themselves what he has achieved in a few short years.

Delegates to the Wealth Creation Summit will be given a full ‘insider tour’ of what exactly the LogicL System will give them, including:

- The secrets of the psychology behind the mega-success Wealth Creation Gurus
- How to create businesses that will generate passive income 24/7/365
- How to build an investment portfolio and how to do it using little to none of your own money
- How to trade the stock market like a pro and how to rent out shares and make a passive monthly income
- How to totally master the property market and make money starting with no assets!
- How to build a global business and income from just a PC and a few hours a week
- The first 400 Delegates to Register will also be given a free Business that could generate as much as £1,000 a month within 6 weeks.

Using on-line technology and down-loadable modules, LogicL delivers this hugely valuable knowledge and training to Members in easily-digestible but life-changing daily or weekly sessions that require only 15 to 30 minutes study a day –many modules can be down-loaded as MP3 audios to listen to on the way to work! And the cost? Around 88 Pence a day – rather less than a cup of coffee a day – a staggeringly small amount to pay for life-changing information!

With wealth-creation training as impressive as this, places at the LogicL Summit on 4th and 5th November will go quickly, so anyone seeking financial freedom should sign up quickly at <http://www.logiclwealth.com>. For more information on how you can rapidly create your own financial freedom, contact the LogicL Team at 0870 950 1959 or email John Thornely, Global Strategy Manager, LogicL International, at Summit@logiclwealth.com.
