

## **Svenska Poker at PokerEon.com**

*Swedish poker players welcome to the new PokerEon.com Svenska*

October 29, 2006 (FPRC) -- Dynamic poker site Poker Eon (<http://www.PokerEon.com>) is now fully available in Swedish, the native tongue of one of the most avid and successful group of players online. The game of poker, and online poker in particular, has gained massive popularity among Swedish players. It seems that poker has received its official stamp as the national pastime on April 2006, when Sweden had become the first country to launch a government operated and regulated card room. This only reaffirms the fact that the Swedish poker lovers on the web are a force to be reckoned with.

Poker Eon's Swedish ([www.pokereon.com/Swedish](http://www.pokereon.com/Swedish)) pages include the complete Poker School section which covers the featured poker games (Texas Hold'em, Omaha, 5 Card Draw, and 7 Card Stud), Hi-Lo variations, game structures, general betting, and the very basics of the game such as hand ranking and actions. In addition, The Swedish PokerEon.com contains a large section dedicated to customer support and general help. By establishing a deeper root in the poker community in Sweden, Poker Eon aspires to rear the next great Swedish poker champs, to follow in the footsteps of prior WSOP bracelet owners, WPT winners and other great young players, famous for learning the game online and becoming rising stars in the field.

The launch of the Swedish version is the first in a line of localized versions to be released by Poker Eon as it aims to provide multi-lingual poker action for users all over the world, and follow its sister site Money-Casino.com which is available in 11 languages (including Swedish). This is expected to further increase Poker Eon's number of players and therefore benefit the larger community by providing players an even wider choice of play mates and tables, offering larger pots and tournaments, and on the whole intensifying Poker Eon's overall poker action.

### **About Poker Eon**

PokerEon.com features downloadable and instant play poker software with Texas Hold'em, Omaha, 5 card draw, and 7 card stud games and tournaments for real or play money. Poker Eon also features casino games using the poker account. The website is available in English and Swedish, provides 24/7 support, and offers players a 100% match first deposit bonus, friend referral bonus, loyalty program, freerolls, and guaranteed tournaments.
