

## Hot New Look for Barcode Labels, RFID and Barcode Equipment

*Adazon has redesigned its barcode labels, RFID and barcode equipment site to meet and satisfy customer needs. Many new features can be found to make online research and ordering a breeze with this site.*

October 30, 2006 (FPRC) -- Website <http://www.Adazonusa.com> has been online for over 3 years with its first site which was functional, but not real intuitive to navigate. Now Adazon has launched a new great look and many new functions to help customers find the right barcode labels, printers, rewinders, and RFID solutions for today's business. Jeremy Klapp of Galesburg Electric recently said:

"I just wanted to let the webmaster of this site know what a fine job they have done. This site has had an extreme makeover since the last time I was on and placed an order. Two thumbs up on the new look and function of your site."

AdaZon has worked hard on making the site easy to navigate and fun to browse. Some of the new features include:

- Online live help
- Order tracking
- New "Search By" methods
- An 800 number
- Product reviews
- The latest barcoding news
- Industry Articles
- Color chart for custom labels
- Gift Vouchers
- Wish list
- Order history views
- Purchase Order capability for open account billing
- New products and categories.

You can even generate your own barcode label on line and save it to your file.

Adazon is striving to make a pleasant online experience for the you by offering many options from getting help to select the correct product. The new site also allows for quick, easy tracking of orders and options for payment including vouchers, coupons, and open account billing. Adazon is the information source for the latest news on barcode product and RFID technology. Easy RFID compliance packages that contains all the hardware and software needed, to produce Wal-Mart, DOD or Best Buy Compliant Labels in just a few hours.

AdaZon is a leading broad line label and barcode solution provider serving businesses and institutions throughout North America. Through a network of nearly 3,000 products and multiple Web sites AdaZon helps customers save time and money by providing them with the right products and solutions to keep businesses running.
