

Finding the Best Unlocked Razr Phone

AllAmericanBling.com's sharp new Top 10 list helps consumers find the best offers in unlocked cell phones.

June 4, 2007 (FPRC) -- Oops. A dropped cell phone crashes to the ground. These little guys are usually tough, but this time, the insides are scrambled. Time for a new phone.

Little Shelby is in high school now. She is not so little any more; she is ready to drive. For her own safety, and Mom and Dad's peace of mind, it's time for Shelby to have a cell phone of her own.

These are just some of the common scenarios where consumers add cell phones to their existing service. One option the consumer has is to order a "unlocked" cell phone, a cell phone that does not have the "sim card" from a wireless carrier in it. Users can then add a sim card from their existing wireless carrier and make the phone part of their monthly calling plan.

"Unlocked Razr Phones are some of the most popular bling we have," said Jeff Young spokesman for www.AllAmericanBling.com. "In fact, we have created a Top 10 list just for them called 'The Top 10 Most Bling Gifts in Razr Phones.'"

"Razr Phones are the best selling cell phones in the world," Young said. "They are the best sellers because they are cool looking, slim, and come in many different models with different features, like cameras and mp3 players. And there are many colors available, too."

"Unlocked Razr Phones are easy for consumers to pick up at our site. Visitors only have to click on "The Top 10 Most Bling Gifts in Razr Phones" to have a great choice!" Young said.

"Ordering an unlocked Razr Phone, rather than purchasing a new phone with a new calling plan, means the consumer will not have to break a contract with their existing monthly service provider, or sign up for a new plan. This can be a real money saver. This is another reason why Motorola Razr Phones are competing well with the Apple iPhone, and all the other phones on the market. With them, you have to sign a new monthly contract to get their phone! It's much easier to get a new unlocked Razr Phone from AllAmericanBling.com. And our site let's you know what the most popular phones are!" said Young.

"Razr Phone bling is powerful at our site. We know this Top 10 list helps the cellular phone consumer get what they want." Young said. "We also constantly poll our suppliers for the best prices. We have some of the best pricing for Razr Phones on the market."

AllAmericanBling.com is the new shopping and gift web site from Vista Virtual, LLC. The web site keeps consumers up with the latest "bling" including toys, mp3 players, jewelry, and the latest in clothing, as well as cell phones.
