

## SimulationExams A+ Essentials Practice Tests

*A+ certification is offered by CompTIA, a widely recognised computer hardware & software certification. A+ practice tests offered by Simulationexams.com consist of 3 full length practice tests, each with over 100 multiple choice questions.*

June 21, 2007 (FPRC) -- SimulationExams.com, a provider of certification practice tests has released A+ Essentials (Exam code 220-601) practice exams. A+ Essentials™ exam is an essential part of A+ 2006 certification is offered by Comptia®, and considered one of the most popular computer certification. A+ Essentials exam is intended for candidates who have some experience in the installation, and maintenance of desktop and notebook computers. The practice tests offered by SimulationExams include 250+ highly relevant questions that provides a simulated test environment for a candidate before appearing for real exam. The advantages of a simulated exam are:

- \* Ability to gauge one's preparedness to take actual certification exam
- \* To acquaint oneself with actual exam environment (such as timed test, relevant practice questions, etc.)
- \* To prepare for final exam quickly and affectively

The questions types include multiple choice single answer, multiple choice multiple answers, true/false, and exhibit based questions. Most of the questions carry detailed explanation for thorough understanding of the subject. Section wise scoring is provided for identifying weak areas. The tests conform to the objectives of the CompTIA A+ Essentials exam.

Other practice tests available include A+ Core Hardware, A+ Operating Systems, and A+ IT Technician exams.
