Keyword Elite software is one of many keyword research software tools sold to internet marketers. However, that is where the comparison ends with other keyword research tools.

It goes without saying that there are numerous free keyword research tools on the market today. Some are useless, while some do actually have a high reputation. Brad Callen is the creative genius behind the Keyword Elite program. Brad Callen has a high reputation in the marketplace for creating top quality internet marketing software including Keyword Elite and SEO Elite.

Keyword Elite software was initially released worldwide in the beginning of 2006 and it has been receiving superior reviews since that time. There is, of course, good reason for that praise. Keyword Elite is not one software tool but, in actual fact, two powerful keyword software programs in one.

“The majority of new Keyword Elite users are going to be completely clueless on how to use Keyword Elite when starting out with that program. It took me nearly 15 hours of time to get my head around the features in Keyword Elite and I really don’t want other Keyword Elite users to experience the same frustrations that I did,” Karin says. “That’s one of the main reasons I created my exclusive and very comprehensive Keyword Elite Software Training Video Package which is completely free when you purchase Keyword Elite at my website. I should also add that people who have downloaded Keyword Elite through my website have not asked for refunds either as they quickly manage to take full advantage of Keyword Elite in the quickest amount of time possible”.
