

The Website Launch of Greatjobbob.com. It Provides Recommendations for Contractors, Plumbers, Painters and More from People Who Have Used Their Services.

Greatjobbob.com is a national site built by knowledgeable consumers in all communities who have chosen to recommend previously hired contractors/professionals.

July 8, 2007 (FPRC) -- Greatjobbob.com is helping people to find professionals through recommendations from neighbors, friends and perfect strangers. The professionals and searchers we have consulted unanimously agree that recommendations are the best way to find a professional. Greatjobboob.com is the best place to get that information. To our knowledge, there is not another FREE site like it on the internet.

There is a need for Greatjobbob.com's recommendations based professional search. This site provides localized information nationally. Unlike other sites, there is no membership fee for professionals nor for those searching. It is a known fact that people who have had excellent experiences with professionals want to share that information with others. Just as Wikipedia was developed by regular people inputting information this will grow from that same drive. Consumer recommendations do not guarantee any level of performance by a professional. Professional licenses have not been verified. Greatjobbbob.com does not endorse the professionals or companies listed, we only pass on information provided by others who have utilized their services with great success.

Greatjobbob.com began as an idea from a Rhode Island New Neighbors website managed and developed by us. The New Neighbors site provided a resource file for new members who recently moved into our community. A large number of newcomers to this area needed immediate construction on their newly purchased homes, as well as, recommendations of doctors, landscapers, hairstylists, etc. It's a very useful resource. Expanding it statewide then nationally seemed liked the logical next step.

Greatjobbob.com's database is growing rapidly and ready for every state. Recommendations are input via a form directly on the site and uploaded to the proper state and category soon after review.
