

Free "60 Minute Affiliate" Affiliate Marketing Ebook Teaches Affiliate Marketers To Make More Money By Working Less

Colleen Slater is proud to announce the official launch of her free 60 Minute Affiliate ebook and website.

Sydney, NSW (FPRC) August 14, 2007 -- Colleen Slater is proud to announce the official launch of her free 60 Minute Affiliate ebook and website at <http://www.60minuteaffiliate.com> which reveals how virtually anyone can increase their profits with niche affiliate marketing programs while working far less, and spending more time with their loved ones by following the 60 Minute Affiliate system.

"I have been an internet marketer for a number of years now and really used to slog my guts out getting up at 4am every morning, then going to my day job, going to bed early because I was exhausted, and spending less and less time with my family and not making any real money with affiliate programs. Then after a lot of research I created my 60 Minute Affiliate system where I spend only up to 60 minutes a day five days a week in my affiliate marketing pursuits and having the entire weekend off to have fun with my family and loved ones and enjoying the hobbies I had to give up, I thought, to succeed," Colleen explains.

It may shock you to learn that most new affiliate marketers never get one sale, and after spending a lot of money give up extremely disheartened.

However, once Colleen learnt how to work smarter and not harder in her niche affiliate marketing programs a very surprising thing happened...even though she was working less and having much more free time she started earning thousands of dollars every month in pay per sale affiliate programs.

"One of my good friends asked me how I was doing this with the little time I had available, bearing in mind that I work full-time in my day job, and that got me thinking that other niche affiliate marketers would also benefit from what I've learnt."

As a result the 60 Minute Affiliate System was born.

While many affiliate marketing guides are usually downloaded for a significant fee Colleen has decided to offer her 60 Minute Affiliate at no cost to anyone and everyone who thinks they could benefit from learning the 60 Minute Affiliate system to make real money with affiliate programs.

"It's excellent Colleen! A whole hell of a lot of it was new to me, and I've been doing this since 2003 making money. I like your summary of weekly plans etc., I know I will be referring to it and digesting it for at least a month!" Michele
