

Walk (Yes, Walk) Los Angeles with Los Angeles Lifestyle Magazine's New Neighborhood Itineraries

The new 'coordinates' walking tour feature in LA2DAY's LA online magazine give locals and tourists a fresh look at the city's unique featured neighborhoods.

August 23, 2007 (FPRC) -- Los Angeles, California - LA2DAY.com, the online LA lifestyle guide to restaurants, hotels, events, nightlife, shows, and hotspots in the City of Angels, today announced the launch of 'Coordinates,' a new feature focusing on select eateries, shops and attractions in select L.A. neighborhoods. The weekly columns are designed as day-long itineraries featuring reviews of staff writers' favorite stops in popular local neighborhoods.

"We wanted to provide our readers with a unique way to view different areas of the city," said Tim Verbeek, CEO of the LA lifestyle magazine LA2DAY (<http://www.la2day.com>). "Although most people view Los Angeles as the city where nobody walks, the year-round perfect climate and variety of areas to explore make it an ideal place for pedestrian excursions."

Each article focuses on a different neighborhood, listing selected attractions such as shops, restaurants, bars, galleries and local landmarks. Featured neighborhoods include Silver Lake, Downtown, Venice, Pasadena, and Hollywood. Articles include an area map and list locations, hours of operations, prices, websites and photos of each listing. To view the latest 'coordinates' feature, go to (http://www.la2day.com/talk/la2day_coordinates_old_town_pasadena).

About LA2DAY: LA2DAY.com is an online Los Angeles magazine and resource devoted to mining the undiscovered gems of Los Angeles. For all who call alternative LA home and for kindred spirits on a weekend pass, LA2DAY.COM illuminates fresh currents and extraordinary experiences.
