

## **Transform Your Water With The O2 Berry Product From TheBerryTree**

*Nutronix International has launched a new product into the market through their new division called The Berry Tree. You will get the O2 Berry product each month to use and / or share with other potential customers along with Exclusive Worldwide Marketing Rights.*

September 12, 2007 (FPRC) -- Nutronix International has launched a new product into the market through their new division called The Berry Tree. You will get the O2 Berry product each month to use and / or share with other potential customers along with Exclusive Worldwide Marketing Rights.

"More than 1 in 5 Americans unknowingly drink tap water polluted with feces, radiation or other contaminants Nearly 1,000 deaths each year and at least 400,000 cases of waterborne illness may be attributed to contaminated water" - The New York Times - June 2, 1995

O2 Berry adds a light Berry flavor to the water without any artificial sweeteners or colors. As anyone with kids knows, getting them to drink more water instead of soda or sugary fruit drinks is a challenge. Adding O2 Berry's mineral benefits and flavor to water can help you and your kids drink more water and minerals every day.

Mineralize: You can clean your water with the O2 Berry Product. Every Sachet of O2 contains calcium, magnesium, and over 70 trace minerals. These essential minerals (electrolytes) become ionic in water allowing them to be absorbed quickly and easily by your body.

Did you know?

The National Cancer Institute estimates cancer risks for people who consume chlorinated water to be 93% higher than for people who do not. The effects of drinking chlorinated water have been debated for decades.

However, most experts now agree that there are some significant risks related to consuming chlorine and chlorination byproducts.

Tests have proven that The O2 Berry Product absorbs and removes very large amounts of chlorine from chlorinated water.

You can clean your water with O2 Berry!

O2 Choral Calcium is delivered in a pure ionic form, which means it is immediately bioavailable to the body. O2 may also help your body to:

- \* Combat arthritis and heart disease.
- \* Cleanse the kidneys, intestines, and liver.
- \* Protect your body from free radical cell damage.
- \* Increase muscle and joint mobility.

- \* Increase your oxygen levels.
- \* Control digestive problems.
- \* Regulate blood sugar.
- \* Manage blood pressure.
- \* Neutralize harmful acids that lead to illness.
- \* Help in fighting the battle against cancer and other diseases.
- \* Assimilate vitamins and minerals from the foods you eat and the supplements you take.

Revitalize: Alkalinity = good health. O2 transforms your water into a powerful alkaline beverage, which fights against the physical stress caused by today's fast-paced lifestyles. It takes 32 glasses of alkaline water to neutralize the acid from one 12 oz. soda. Each time you drink acidic soda, coffee, tea, and energy drinks your body uses its own buffers (from bone and dna) to raise the body's alkalinity to maintain your healthy blood pH level of 7.35-7.45.

Transform your water! Make O2 your daily source for hydration and refreshment! It's as easy as 1-2-3!

Step 1: Drop a O2 sachet ("teabag") in 18-24 ounces of purified or bottled water.

Step 2: Shake for 10-15 seconds.

Step 3: Allow 5 minutes for O2 to transform your water before drinking.

This reporter has been a BerryTree Distributor since April of 2007 and has a system of duplication in place that can help anyone succeed. He currently resides in Newark, Delaware.
