

SimulationExams.com CCENT (CCNA ICND) Certification Practice Tests

SimulationExams.com, a leading certification practice exams provider has recently released CCENT (Cisco Certified Entry Network Technician) tests. CCENT certification is offered by Cisco Systems®, and replaces the current CCNA Intro exam. CCENT exam is intended for candidates who have experience in configuring and troubleshooting branch office networks using Cisco devices such as routers and switches.

November 2, 2007 (FPRC) -- SimulationExams.com, a leading certification practice tests provider has recently released CCENT (Cisco Certified Entry Network Technician) practice tests. CCENT certification is an entry level certification offered by Cisco Systems®. CCENT exam is intended for candidates who have hands-on experience in planning and implementation of small branch office networks using Cisco devices such as routers, switches, and Hubs. The practice tests offered by SimulationExams include 200+ highly relevant questions that provide a simulated test as well as lab environment for candidates before appearing for real exam. The advantages of a simulated exam are:

Ability to gauge one's preparedness to take actual certification exam

To brush-up the topics quickly and affectively

To familiarize oneself with actual exam environment (such as timed test, lab practice, relevant practice questions, etc.

CCENT is the foundation exam for obtaining CCNA Certification. To achieve CCNA, one need to pass both CCENT (also known as CCNA ICND1), and the CCNA ICND2 exams. Alternatively, one can obtain CCNA certification by passing a single exam, 640-802. The single exam path is recommended for candidates who have atleast 1 year experience in networking using Cisco routers and switches. The Cisco certifications are generally valid for 3 years, and candidates are expected to renew certifications by taking renewal exam. CCNA is the foundation certification for taking CCNP and other professional level exams.
