About SimulationExams.com: The website offers certification practice tests, and free certification resources for CCNA, CCNP, A+, Network+, and others.

About Network+: The Network+ certification is offered by CompTIA® and is widely recognized certification in the area of computer networking. To achieve Network+ certification, one needs to pass only one exam. Note that CompTIA® often revises the exam options and exam topics to cover more recent developments. CompTIA certifications do not expire, though it is recommended to retake a certification once every few years to keep abreast of the developments.

All the practice tests are available with simulationexams.com
