

CertExams.com CCNA Online Exams

CertExams.com, CertCCNA online exams are intended for candidates desirous of taking CCNA certification exam. The online exams consist of 300+ relevant questions that help in preparing the candidates thoroughly for the certification exam.

December 13, 2007 (FPRC) -- CertExams.com, a leading online exams provider released online version of CCNA 640-802 (Cisco Certified Network Associate) practice tests. CCNA certification establishes a candidates ability to configure and troubleshoot branch office networks using Cisco routers, switches, and hubs. The online exams offered by CertExams include 300+ questions with detailed explanations. The following question types are available with the online exams:

- Multiple choice multiple select,
- Multiple choice single select
- Drag-n-drop
- True/False type questions
- Exhibit based questions

The advantages of taking a prep exam are given below::

- Ability to gauge one's preparedness to take actual certification exam
- To prepare for the exam objectives thoroughly from a different perspective
- To acquaint oneself with the actual exam environment (such as timed test, lab practice, scenario based questions, etc.)

About CCNA: CCNA can be achieved by taking CCNA exam 640-802 or by passing two constituent exams. Two exam option consists of CCENT (Cisco Certified Entry Network Technician), and CCNA ICND2. To achieve CCNA, one need to pass either the single exam (CCNA) or both CCENT (also known as CCNA ICND1), and the CCNA ICND2 exams separately. The single exam path is recommended for candidates who have sufficient hands-on experience in LAN/WAN networking. Cisco certifications are generally valid for 3 years, and candidates are expected to renew certifications by taking renewal exam. CCNA is the foundation certification for taking CCDA, CCNP and other professional level exams.
