

eMonsterhost's Web-based Email Delivers Desktop Power, Anywhere Convenience

New Release Adds Features to Benefit Business and Home Users

December 19, 2007 (FPRC) -- Green Bay, WI. - eMonsterhost, Inc. announces the release of Web-Based Email 4.0, coupling the benefits of a desktop email program with the convenience of a Web-based platform.

eMonsterhost's Web-Based Email Accounts are fraud, spam and virus protected, POP3-configured and advertising-free. Each account offers you@yourdomain.com personalization for a truly unique e-mail identity, generous disk space to accommodate large attachments and access to accounts from anywhere with an Internet connection.

Web-Based Email 4.0 is a feature-rich upgrade to eMonsterhost's already successful email program, giving customers many NEW features as well as fine-tuned and added security features:

- Instantly preview email messages while scrolling through them in the inbox
- Unique Drag and Drop to quickly move email messages for easy filing and storage
- Search email OR the entire Web in a single click and save searches for future reference and to help save time
- Create folders quickly and easily from any screen view without a complicated folder management interface
- Customize the program's appearance by choosing from among a wide variety of color palettes. New templates and themes are also available for users.
