

International Commerce Group Inc. Targets Oil and Gas and Private Equity Groups

International Commerce Group Inc, (ICOMGRP) conducts due diligence and offers legal and consulting services to companies that want to get into emerging markets in Africa.

February 19, 2008 (FPRC) -- International Commerce Group Inc., will focus on working with the oil and gas and private equity sectors with added emphasis on Nigeria, Ghana and Equatorial Guinea. Our services include : Due Diligence , Negotiation, International Contracting, Joint Venture Matching, FCPA Compliance, and Relocation Consulting for prospective companies and investors. Our staff consists of lawyers, accountants, financial analysts, IT experts and other professionals with Local Knowledge and Multi-Country experience. We build the bridges to international commerce. Establishing and maintaining a business relationship within a foreign country presents a set of challenges for which many companies may be unprepared. Performing proper due diligence to verify the integrity and financial soundness of your prospective business partner is critical in managing the risks involved. Too many countries that offer excellent new business opportunities have experienced recent political and social turmoil. Some countries have proved to be inherently unsafe for travel by US citizens where they have been subjected to kidnappings and murder. We can help reduce and manage these risks. Our company can travel to a foreign country on your behalf and our team of lawyers can negotiate your contract terms to afford you the maximum protection. Our due diligence services include a verifiable business history, references, credit worthiness and other business relationships your prospective partner(s) may have. Our staff are intimately familiar with customs, language and culture of the countries in which we operate. The business environment is becoming increasingly international. ICOM Group Inc., is here to provide the support needed for your company.
