

CNC Forum Information Now Up and Running at CNC Forum Website on CNC

CNC Information's Ivan Irons now has his CNC Forum up and running. The CNC Forum was launched a few months ago but users are now in the CNC Forum Daily.

March 4, 2008 (FPRC) --

CNC Forum with great CNC Information and a wide variety of CNC Forum topics is available on Ivan Irons' CNC Information Website and the specialized CNC Forum Webpage. The CNC Forum can be visited and viewed by Computer Numerical Control Members and Non-Members when they visit the unique CNC Forum webpage that is located at: <http://www.cncinformation.com/cnc-forum>.

Ivan's idea in creating this CNC Forum was that Computer Numerical Control users everywhere could gain insight and understanding into a wide variety of topics on Computer Numerical Control. Hence, Ivan took a very long time shelling out his CNC Forum and making sure there was a wide variety of topics throughout the CNC Forum. Ivan also spent a significant amount of time organizing the CNC Forum because from experience he knew that a CNC Forum was only as good as it was organized because sometimes a CNC Forum may have great information but its very difficult to find information. CNCers everywhere should check out Ivan's CNC Forum on his CNC Information website at the following web link: <http://www.cncinformation.com/cnc-forum>.

Ivan has been working on the CNC Forum for a few months now and has been waiting for users to start posting their questions and comments into the CNC Forum to get the Forum very active and used frequently. The CNC Forum is starting to get used by other members but these things take time. Ivan plans on an introductory special where he will incent CNC users to write some key forum posts and in turn will give them a bonus. Until then, CNCers everywhere will find Ivan's CNC Forum a great place to start their CNC learning and to help others out who are along the phase of learning CNC. Visit the CNC Forum at the following website: <http://www.cncinformation.com/cnc-forum>.

About CNC Information: CNC Information is a community website that allows users to gain a deeper insight into CNC.
