

ProPong Portable Beer Pong Tables Are the Pinnacle of Pong Perfection.

This month we are proud to release our new line of portable beer pong tables with some great new designs and features.

March 5, 2008 (FPRC) -- If you are tired of playing beer pong on a beat up old piece of particle board or getting your perfectly good kitchen table all dirty, then ProPong's portable beer pong tables are exactly what you are looking for.

Releasing this month, ProPong's beer pong tables are the best pong tables available because they are made by players, for players. The tables are 7.5 ft long and 2 ft wide, making them the perfect length for tournaments and wide enough to hold the empty beer cans that tend to accumulate during parties or get togethers.

The tables have four standard table designs with more to follow in the coming months. If you are looking to get a table customized for a business, organization, frat/sorority, or any other reason, we specialize in customized beer pong tables. Our team of graphic designers will work with you to create the perfect pong table for you.

ProPong offers special custom bulk order deals for bars, restaurants, or any other group that would require a few tables in one purchase. Contact our sales team for information on these great deals. Webmasters interested in retailing or affiliating our tables on their websites should check out the reseller information pages on our mainpage.

We are looking forward to enhancing beer pong for partiers all over the country! Look for us at the various tournaments we will be hosting across the northeast area, we might be coming to a venue near you!
