

## 'Goalden Girl' Strikes and Scores on the Online Book Market!

*Tracey Morait's first novel for children, 'Goalden Girl', is making a big impact on the online book market!*

March 7, 2008 (FPRC) -- Aimed at children aged ten and upwards, 'Goalden Girl' is the story of Gemma Sutherland and her quest to make sure the girls at her school get the chance to play football, despite the boys, particularly Tyrone Collins, doing everything they can to prevent it. There are conflicts between both sexes and tests of will. Who will win the day?

Incidentally don't be fooled by Gemma's sudden urge to dress and act like a Goth; she isn't really one, she's just rebelling against her dad's re-marriage to her repellent stepmother, Shelley. And as for her stepsister, Portia, that's another headache she has to put up with! She'll stop at nothing to get them out of her dad's life and have him to herself again.

The story is set in the United Kingdom and has a great appeal for children who enjoy sport, especially girls who like playing and watching the Beautiful Game. There's also a mystery to solve for Gemma, involving Shelley and her games teacher, Mr Cassidy. An unexpected twist at the end leaves Gemma, and the reader, totally surprised!

'Goalden Girl', ISBN: 9781847997586, is published by Lulu.com and retails at around \$14.00 a copy. It is for sale online at Barnes and Noble, all Amazon sites, Tesco, Blackwells, and Waterstones Online (UK). It can also be ordered through any book shop. Look out for other books by Tracey Morait coming soon!
