

Stratavia named EMA All Star

Stratavia named 2008 Rising Star in the database automation and optimization category as part of The EMA All-Stars in Enterprise Systems Management for 2008 report.

Denver, CO – Feb 15, 2008 – Stratavia™, a leading provider of run book and data center automation software, announced today that it has been named 2008 Rising Star in the database automation and optimization category as part of The EMA All-Stars in Enterprise Systems Management for 2008 report. Published in January 2008 by Enterprise Management Associates, a leading analyst firm focused specifically on the IT management market, the report recognizes the talent, performers and innovation in systems management.

Just as the sports world shares the concept of an 'All-Star' team – a qualified selection of the best performers of the year – EMA Research uses an All-Star metaphor to highlight the best Enterprise Systems Management vendors, the EMA All-Stars in Systems Management for 2008. The Rising Star award acknowledges the best new or innovative vendors with the greatest potential.

- EMA analysts selected the top solutions by analyzing: The strength of vendor product offerings, functionality, and platform support
- Commitment to product vision and delivering innovation
- Customer feedback including satisfaction, and market penetration
- Enterprise Management Associates' perspective from independent evaluations of expert analysts

"Stratavia has proven they are committed to quality and excellence while addressing the real needs of the data center," said Andi Mann, research director, Enterprise Management Associates. "Its Data Palette solution is highly scalable, and can result in specific and substantial payback - in one customer implementation, it delivered time and productivity savings of up to 60 percent. In EMA's research, Stratavia also ranked as equal-first among all contenders for customer satisfaction. Results like this are well worth watching."

"We are honored that Stratavia has received recognition as a Rising Star by analysts that are dedicated to the IT management market and know our customers best," said Thor Culverhouse, president and CEO, Stratavia. "Stratavia has been focused on reducing the complexity that invariably characterizes IT operations in today's heterogeneous enterprise. Our Data Palette platform allows them to streamline IT processes, resulting in improved service levels, reduced costs and greater management control."

About EMA
