

New Precious Metals Business, Silver Snowball, Allows Members A Chance To Earn Silver Coins For Pennies On The Dollar

Silver Snowball is literally what it says; it provides members an opportunity to earn an unlimited amount of Silver Coins for well below spot price

March 19, 2008 (FPRC) -- Ed Freeman, of Halifax, MA, created the Silver Snowball program in late 2007 to provide an inexpensive and fun way for people to collect more and more Silver Coins to protect their money from inflation. Silver Snowball can be viewed at: manifestyourfortune.com/silver/pr

For a small monthly fee, Silver Snowball members worldwide receive (monthly) a full, one-ounce, Silver American Eagle Coin minted by the U.S. Mint. These coins are legal tender of the United States and instantly recognized the world over. These coins are not only beautiful, they are also inflation proof.

Faced with global recession and inflation, increasing numbers of people worldwide are concerned about their money. These are ordinary, budget strapped folks, who today see their money buying less and less. They know unless they can find a way to protect the value of what money they have, their standard of living will continue to deteriorate. Silver Snowball provides an inexpensive and profitable way to invest in Silver, the working man's Gold (called hard money).

"Since the time of Babylon, Gold and Silver have always been money. When placing hard earned dollars to start a business like Silver Snowball, you're placing your money into something solid, something real. Real objects like precious metals are something real, something tangible and should be part of everyone's portfolio," states founding Silver Snowball member Chad Hershey of the Pinnacle Group.

Mr. Hershey continues, "The U.S. Dollar has lost 70% of its value against other major currencies since the United States went off the Gold standard in 1971. Silver cannot be 'made', as opposed to company products. This simplifies the supply and demand way of thinking, because there is a fixed supply. All that you have to worry about is the demand, and when isn't the demand for precious metals high, especially in today's day and age!"

Mr. Hershey concludes, "The precious metals market is set to explode and for as little as \$50, Silver Snowball members can be a part of this growth and share in the massive profits that will be created. Silver Snowball is here at the right time, and the time is right for Silver Snowball."
