Lieutenant Frank Colaprete began his law enforcement career with the Rochester Police Department (New York) in 1985. He has been assigned to patrol, research, training, administration, internal affairs, and investigative support. Dr. Frank Colaprete earned his doctorate from Nova Southeastern University where his research interests have been primarily in police science and operational issues. Dr. Frank Colaprete has been an adjunct professor of criminal justice studies and institute partner for the Criminal Justice Department and Institute for Public Safety Policy Studies respectively, at the State University of New York College at Brockport since 2000. Frank Colaprete is the author of Internal Investigations: A Practitioner's Approach.

According to the book description of Internal Investigations: A Practitioner's Approach "Throughout the history of law enforcement, the internal investigation process has held the most negative connotation of any investigation conducted by law enforcement personnel. As we progress through the new millennium, the need for efficient and effective law enforcement services and practices grows ever more critical. The goal of this book is to demonstrate this need for proper and complete internal investigations, and to teach the entry level and tenured police supervisor the form and function of the internal investigations process."

Thomas Brandon is a Deputy Inspector with the Suffolk County Police Department (New York). He is a graduate of the U.S. Army and Federal Bureau of Investigation Hazardous Devices School. Thomas Brandon is the co-author of Weapons of Mass Destruction: Response and Investigation.

According to the book description of Weapons of Mass Destruction: Response and Investigation, "This book is designed to provide law enforcement personnel with response guidelines and evidence gathering techniques that may be utilized when responding to an incident involving the use or threatened use of a weapon of mass destruction (WMD). The first part of the book addresses the actions to be taken by the first law enforcement personnel arriving at the scene of a WMD incident."
