

WowzzaPower - A New Professional Social Network That Just Launched

Wowzza is a new social networking site, completely focused on Internet marketing for people who work at home. This is where all of the Network Marketers, Affiliate Marketers and Home Based Business people are going to build their current businesses and create an additional income stream.

April 11, 2008 (FPRC) -- The Wowzza! Community is for anyone that markets their business on the Internet. It was developed exclusively for home business professionals and is a fully functional social network. All members are paid, so you know that you are only building relationships with serious professional business people.

The Wowzza Social Network just launched on Monday, March 31st, 2008. Wowzza is run by Network Marketing veteran Jim Vigilante and it is experiencing phenomenal growth in just it's first week. Over 15,000 People have joined in just the first 18 hours.

How much does it cost?

Wowzza costs just \$33 per month. This new social network allows members to promote their opportunities to 1000's of other Wowzza members. It's a small price to pay for all the advertising benefits.

How much can be earned with Wowzza?

The compensation plan is a 3x9 Forced Matrix. No sponsoring is required to earn on 6 Levels! You could earn \$1,839 a month without ever signing up one person and just by sponsoring a few will open up the entire pay plan. There is a 50% fast start bonus for each member that is sponsored. Their PowerLine Marketing System has been used to build companies in the hundreds of thousands, it is the fastest, easiest and most effective way to build an income, it would normally cost an extra \$30 a month just to use it, but Wowzza! provides it at no cost to their members.

Member profiles are business focused with ads, banners, links, and a business overview. They can add blogs, discussion groups, audios & videos and much more. Profiles are seen by all members and non-member visitors so that they get as much traffic and exposure as possible. A professional marketing system is included with all memberships at no extra cost.

Millions of people are using social networking sites to promote their home businesses and many more join every day. Very few of these networks produce any income for their members and most are comprised of all free member. Very few of them, if any have as powerful an income generator as WowzzaPower.

Targeting of this type would normally cost thousands in monthly ad expenses.
