

Grand Theft Auto 4 Owners Are Making Copies of Their Games

To celebrate the recent release of Rockstar's hot new game, Grand Theft Auto 4, the people behind gamecopyingguide.com have dropped the price of their book.

May 15, 2008 (FPRC) -- After one of the most anticipated video game launches ever, Rockstar Games has officially set an all-time record by grossing more than \$500 million in consumer sales for their latest title, Grand Theft Auto IV.

The record setting sales also mean more gamers are looking for ways to make back-up copies of the game. So to celebrate the successful launch of GTA4, the people behind gamecopyingguide.com have reduced the price of their book, "A Console Gamer's Little Black Book of Dirty Secrets".

The book, which is now retailing for the special price of \$14.95, and takes readers through the process of making back-up copies of their games, step by step with easy to read instructions.

"We teach gamers how to create working backups of their video games and play them. We understand how important a gamer's investments are to them, especially with todays economy and would like to put an end to their worries when it comes to missing and damaged games," said spokesman Xtreme GamerX. "A Console Gamers Little Black Book Of Dirty Secrets teaches gamers how to backup their PSP, PlayStation, PlatStation 2, Xbox, Xbox 360, Nintendo Wii, GameCube, Nintendo DS and GameBoy Advanced games."

The special price of \$14.95 will only be available until 5-25-08, at which time the price will return to the normal price of \$24.95 and is rumored to get raised even higher.
