

SouthCoast Recovery Starts Valium® Treatment Program

California's top alcohol and drug rehab center pronounces the addition of a Valium Treatment Track.

DANA POINT, CALIFORNIA, June 25, 2008 (FPRC) -- SouthCoast Recovery California's foremost alcohol and drug rehab center, as a result of the demand for successful Valium Addiction Treatment, is proud to pronounce the addition of a Valium Treatment track to its 30, 60, 90-day and six month residential treatment programs.

Over the past few years, SouthCoast Recovery has been seeing clients requiring treatment for Valium Addiction more than ever before and as a result, SouthCoast Recovery recognized the need for a specific Valium Addiction Treatment track in addition to its other focused drug and alcohol treatment programs.

Valium, is also known by the trade names Diazepam® and Novodipam®, is a prescription benzodiazepine derivative drug (or benzo for short) and it is commonly used for treating anxiety, insomnia, seizures, acute alcohol or opiate withdrawal, and muscle spasms. The state of relaxation, level of sedation and anxiety relief, as well as, the dis-inhibition induced by Valium is the main reason for its illicit use and is often the primary cause for addiction. Polydrug abusers (someone who already uses at least one substance in a recreational context) are at a particularly high risk for Valium addiction, abuse, and continued misuse without treatment.

Valium addiction can also be a symptom of underlying issues that need to be addressed on an individual basis, such as, dual diagnoses like depression and anxiety, and at SouthCoast Recovery's state-of-the-art facilities, the finest clinical and medical physicians work together with skilled practitioners in the most advanced Eastern holistic therapies, while utilizing the most advanced Valium addiction detox methods such as NTR, to help ease clients through detoxification and provide the most comprehensive physical, emotional and spiritual regeneration of each person.

SouthCoast Recovery offers seven residential facilities, a clinical therapist, marriage & family therapist, certified drug & alcohol counselors, a medical physician, a licensed acupuncturist who specializes in Oriental Medicine, a licensed massage therapist, sessions in primordial sound meditation, as well as, group support in the local 12-step communities.

At SouthCoast Recovery, we believe that recovery from addiction is about a new way of living. Valium Addiction Treatment is now available during 30, 60 and 90-day residential treatment at SouthCoast Recovery. For more information, please call Tom Petersen at (866) 847-4506 or visit <http://www.southcoastrecovery.com>.

Like many of the most noteworthy companies today, SouthCoast Recovery started out of a garage in 1994 and is now one of the leading recovery centers in the nation offering advanced clinical, medical and holistic therapies in the individual treatment of drug and alcohol addiction.

SouthCoast Recovery. It's about living!
