

## **San Diego Property Management Company Announces New Website**

*WestView Property Management announces its new website, highlighting its services available for property owners and tenants in the San Diego, Sacramento and Lake Tahoe areas.*

July 2, 2008 (FPRC) -- SAN DIEGO, CA – San Diego property management company, WestView Property Management, announces its new website and services for the San Diego and Sacramento areas.

WestView Property Management is a family owned and operated business run by brothers, Ryan Marsh and Todd Marsh. It is a full service property management company that's focused on customer service for owners and renters.

"We are here to do things differently. We believe that a fresh new perspective will provide a positive experience for property owners, as well as the renters throughout the management process. We are here to work hard for our clients and their valued renters, ensuring all needs are handled professionally with a positive attitude," said WestView Property Management president Todd Marsh (<http://www.westviewpropertymanagement.com>).

WestView can handle Sacramento property management, as well as properties in San Diego and Lake Tahoe. They deal with all aspects of property management, like marketing a home when it's time to find a new tenant, working with maintenance issues and paying mortgages, utilities and taxes. WestView Property Management representatives are also available at all hours of the day and night, as well as weekends and holidays.

"We are a full-time property management company and are available to answer the phone 24 hours a day, 7 days a week. We also show vacancies 7 days a week, reducing the amount of time your rental property sits empty. In addition, we advertise and market the property through yard signage, Internet sites, local periodicals and WestView's website," said Marsh.

WestView's new website was designed by Aces 4 Hire, a full service web design firm. "We selected ACES after working with them on a previous project. We had such an easy time working together before and we were extremely satisfied with their work. So I knew who to turn to when selecting a company to design our new website! We needed every advantage we could get, especially launching a brand new website. Once again, they have created a site that looks great and functions better than we had anticipated!" said Marsh.

About WestView Property Management: WestView Property Management (<http://www.westviewpropertymanagement.com>) is a full-service property management company servicing the San Diego, Sacramento and Lake Tahoe areas. They focus on all aspects of property management, from finding tenants to paying the mortgage, taxes and utilities and everything in between.
