

Star Search Casting Now Serves More Than 235,000 Members

More than 235,000 actors, models, singers and dancers have joined Star Search Casting and the membership base continues to grow.

July 7, 2008 (FPRC) -- Star Search Casting (<http://www.starsearchcasting.com>), the #1 casting site on the internet, now serves more than 235,000 members. The website's membership base is comprised of actors, models, singers and dancers from the United States and around the globe. Every day SSC members are successfully making their mark on the entertainment industry, and thanks to their testimonials and the website's solid reputation among entertainment industry executives, the number of Star Search Casting members continues to grow.

Actors, singers, dancers and models of all ages and ethnicities have achieved record success from using Star Search Casting to attain jobs in the entertainment industry. Each week the website is flooded with testimonials from members who have gotten closer to their dreams of becoming a Hollywood star by landing agents and managers, and booking roles on major television networks and the silver screen. And each week, more and more actors, singers, dancers and models continue to join the <http://StarSearchCasting.com/index.php> website in order to seek the same success.

"The number of members has grown substantially," says Jonathan Parker, founder of Star Search Casting, Inc. "I think one of the primary reasons is because many of the industry's top casting directors, talent agents and managers, and other entertainment industry professionals use the site consistently to find new talent and the word is spreading quickly."

Another reason is that Star Search Casting attracts so many members is that it offers invaluable services and resources. Actors, singers, dancers and models not only get access to auditions and casting calls from major networks and production companies, but they also get to network with other actors, singers, dancers and models in the community forums and get expert advice from the website's talent consultant.

Additionally, Star Search Casting offers its members premium opportunities to showcase their talent on the website. Models can post up to 100 photos on their profile to showcase their versatility. Singers can upload three audio files to showcase their vocal range and style. Actors and dancers can display their skills by uploading three video files of their best work. No other website gives actors, dancers, singers and models this amount of exposure in one central location.

Actors, singers, dancers and models rely on maximum exposure to advance their careers. Star Search Casting provides not only maximum exposure, but also resources, opportunities and valuable information in a safe, user-friendly, online environment. The website has become so successful that actors, singers, dancers and models from all over the world now use Star Search Casting to find opportunities in film, television, theater, modeling, dance, the recording arts industry and more.
