

Electric Scooters 4 Less Cuts Golden EZ Seat Lift Chair Prices

Known for its vast amounts of various medical supplies and affordable prices, Electric Scooters 4 Less decides to slash the price of one of their top-of-the-line products by over 50 %.

July 29, 2008 (FPRC) -- Due to its wide popularity among consumers of the advantageous establishment, Electric Scooters 4 Less, the company will reduce the normal cost of one of its most valuable products, the Golden EZ Stair Lift Chair. The original cost of the product ran a total of \$498 but now costs a mere \$199, which is less than half its original price.

Vice President of Sales, Chris Johnson is very proud and excited about this new offer. 'Because this product has done so well with helping the well-being of our customers and our company, we decided to make things a bit easier,' he said.

If one has experienced the opportunity of using the Golden EZ Seat Lift Chair, then it is easy to understand its popularity. Besides the fact that it assists those who may not want or need the ability to recline, it is also lightweight, portable, and can be easily moved room-to-room using the wheels on its rear legs.

Electric Scooters 4 Less is based out of Statham, GA and has been supplying their customers with some of the most helpful products for 8 years.

Golden Technologies was founded in 1985 in a garage in Pittston, PA., by Robert Golden, Sr., and his partner, Fred Kiwak. Robert's son, Richard Golden, took over as CEO of the company in 1991, a position he still holds today. The company currently manufactures four different product lines: scooters, power chairs, luxury beds and lift chairs.
