

## **Talkswitch Case Study: Hybrid IP PBX Phone System Saves Huron County Michigan \$14,000 Annually**

*TCE Company, a Platinum-level national reseller of Talkswitch hybrid PBX phone systems, has published a case study documenting the role of Talkswitch VOIP phone systems in saving the Huron County Road Commission more than \$14,000 annually.*

August 5, 2008 (FPRC) -- Wauconda, IL – TCE Company, parent company of Best Deal Talkswitch has announced the publication of a new case study 'TCE & TalkSwitch Helping to Keep Northern Michigan Roads Passable' to its library of resources.

When Huron County Road Commission IT Manager Steve Kanaski contacted TCE Company, the road commission's phone technology was seriously out of date. In addition, Mr. Kanaski needed to implement a new system that would seamlessly integrate multiple buildings on a wireless network along with multiple locations, offices and people.

After analyzing the county's needs, TCE Company recommended Talkswitch hybrid PBX technology. The modern IP PBX phone system not only provided a far greater degree of reliability and a more organized communication process, but also saved the organization more than \$14,000 annually.

"Outdated communication systems are very often the cause of major profit and productivity loss for today's organizations. The Huron County case study can serve a blueprint for businesses seeking ways to plug leaks in their company's profits and productivity through more effective communications systems," said Brian Gatza, president of TCE Company and leading retailer of Talkswitch phone systems.

TCE's case study reveals vital information about how organizations and businesses can not only save money, with hybrid PBX phone systems but also improve productivity, reduce communications downtime, and provide a more seamless experience for clients.

The Talkswitch case study can be downloaded in PDF format from the Best Deal Talkswitch website at <http://www.bestdealtalk.com/category-s/832.htm> or viewed online at <http://www.scribd.com/doc/4363067/Talkswitch-Case-Study>.
