

MyTarp.com Now Offers New Screen Shades And Mesh Tarps

MyTarp.com is now able to provide customers with different types of mesh tarps and screen shades. The shades can block out 40-95% of the sun's rays and are available in a variety of colors and sizes.

August 29, 2008 (FPRC) -- MARIETTA, GA - MyTarp.com has recently added privacy fence screens, tennis screens, pool covers and shade fabric to its inventory of tarps for sale online.

The online tarp retailer's privacy fence screens come in two different shade percentages. The Economy screen provides 80-90% shade from the sun and wind protection, while the Premium provides 95% shade and wind protection.

MyTarp.com's new tennis screens are available in two different types - an open mesh with 85% shade and wind blockage and a close mesh with 95% of shade and wind blockage. The mesh tarps can also be used for baseball, football and track fields or anywhere else that wind protection is needed.

The new shade mesh products are available in 40%, 50%, 60% and 70% shade. Shade mesh screens are used primarily for agriculture, but can be used anywhere a sun shade is needed. Additionally, the new pool covers in stock measure 6' by 25' and are available in either black or green.

'We offer everything needed for sun and wind protection. Many of our items are available in multiple sizes, colors and degrees of sun shade. If we're unable to stock a special size, we can custom order it for our customer. Previously we only carried mesh tarps with a 50% sun shade in a variety of colors so we're excited to expand our inventory with privacy fence screens, tennis screens, pool covers and other shade fabrics,' Annie Yang, President of MyTarp.com (<http://www.mytarp.com/>).

In addition to vinyl tarps and screen shades, MyTarp.com also offers tarps gym floor covers, paint drop cloths, neoprene tarps and accessories like bungee cords, grommets, grommet hole cutters and rubber tie downs.

'Because we specialize in everything related to tarps, covers and screening, we're able to offer our customers an unparalleled selection. We're pleased to be able to expand our inventory and become a one-stop shop for our customers,' said Yang.

About MyTarp.com: MyTarp.com (<http://www.mytarp.com/>) is a leading online retailer of tarps offering a variety of tarps, covers, and cargo control products. The company is passionate about providing its customers with products of superior quality and at great prices.
