

iPhone Bling: Now in 3G

AllAmericanBling.com has added Apple iPhone 3G Accessories to Their Recently Updated iPhone Bling Pages

September 2, 2008 (FPRC) -- 'The coolest phone on the market just got cheaper, and faster with the introduction of the Apple iPhone 3G. This latest version of the iPhone has different dimensions than the original iPhone, so the accessories need an update! That's where we come in. AllAmericanBling.com keeps everyone up with the latest bling.' says Jeff Young, spokesman for www.AllAmericanBling.com.

AllAmericanBling.com has added Apple iPhone 3G accessories to their recently updated iPhone Bling pages. The new accessories can be found at www.AllAmericanBling.com/AppleiPhone3GAccessories

'This is way cool stuff,' claims Young. 'We now have a whole area of our website devoted to nothing else but iPhone 3G accessories. iPhone 3G faceplates that are bright, colorful, and hip. iPhone 3G leather cases that are sleek and tasteful. iPhone 3G covers that fit and protect from the active iPhone 3G lifestyle. We have bags, carriers, and holsters, chargers, and docking stations made specifically for the 3G iPhone, and iPhone Bling of all kinds, including bluetooth headsets and speakers.' Young said.

Young added, 'We have recently updated our iPhone Bling pages,' found at www.AllAmericanBling.com/iPhoneBling 'to put more emphasis on our most popular items. Our most popular items basically being the gear that lets the iPhone owner ad their own personality to their iPhone experience. Like bright faceplates with vivid designs, as well as gear that lets the iPhone owner find all the functionality they need to fit their lifestyle. Gear like an iPhone FM transmitter for their car.' said Young.

'At AllAmericanBling.com, we make it easy to find the bling that's your thing.' Young said.

AllAmericanBling.com is the up and coming shopping and gift site from Vista Virtual, LLC. The website keeps consumers up with the hottest 'bling' including Razr Phones, iPods, jewelry, the latest clothing, and toys.
