

## **Worship Network TV Announces New Media Site**

*Worship Network TV announces the launch of its official website [www.worshipnetworktv.com](http://www.worshipnetworktv.com) to the general public and worldwide. This exciting new initiative will allow Christian ministries to display video events and services, written materials, music and other forms of inspiration to a global audience 24 hours a day.*

September 4, 2008 (FPRC) -- [WorshipNetworkTV.com](http://WorshipNetworkTV.com) has combined video and the internet in an effort to create a powerful environment for communicating highlighted Christian inspiration and encouragement. [WorshipNetworkTV.com](http://WorshipNetworkTV.com) is an opportunity for churches, Christian organizations, authors, and gospel artists to broadcast to people around the entire world through the use of streaming video technology.

Fast broadband internet connections are exploding in homes and businesses around the world. As a result, millions can now receive television ministry clearly — right on their computer 24 hours a day, 7 days a week!

According to Nielsen/Net Ratings, in January 2005 there were 103.8 million broadband users in the U.S. and by August 2005 the figure had jumped to 120.8 million and prices are dropping equivalent to dial-up. In the United Kingdom, 73% of internet users have a broadband connection. Similar growth is occurring all over the world.

[WorshipNetworkTV.com](http://WorshipNetworkTV.com) is an opportunity to take advantage of this magnificent medium. Set up just like a regular television network, [WorshipNetworkTV.com](http://WorshipNetworkTV.com) broadcasts its program schedule over the internet. With on-demand programming and a broadband internet connection like DSL or Cable, church members, businesses, networking groups and friends locally and internationally are able to view powerful programming with clarity and accessibility at a fraction of the cost of regular television.

This means that instead of your ministry just broadcasting on local stations, your ministry can now be watched all over the planet for a price that is comparable to local cable leased access!

Now your ministry can join our lineup of exciting churches and ministries from around the world!
