

## **Raleigh Dentist Dr. Tres Williamson Announces New Website**

*Raleigh dentist Dr. Robert Williamson and his Raleigh Comprehensive and Cosmetic Dentistry office have redesigned their website. The Raleigh cosmetic dentist's patients can alter insurance information, set appointments and print forms before visiting*

September 12, 2008 (FPRC) -- RALEIGH, NC - Raleigh dentist, Robert Williamson, DDS, announces the redesign and relaunch of his new office website. The redesign will make it easier for patients of the Raleigh Comprehensive and Cosmetic Dentistry office to keep track of their dental care.

Dr. Williamson's new site has made it possible for patients to update the office with insurance changes, as well as address, email and phone number changes.

"We hope that these online services make it more convenient for our patients. By being able to update us quickly and at any time, we're saving our patients valuable time during their work days. Patients can even request an appointment online and new patients can print off application forms before their first appointment. By printing out these forms beforehand, our patients will be able to fill them out at their convenience, meaning less time away from their busy lives," said Dr. Williamson (<http://www.raleighdentist.com/>).

The new site is meant to provide patients of the Raleigh cosmetic dentist with better information about the office, staff and procedures.

Some of the services offered by Dr. Williamson's office include cosmetic procedures such as veneers and cosmetic bonding, teeth whitening in the office or the comfort of your own home, tooth-colored fillings, crowns and bridges and traditional or invisible braces. Routine dental care including preventative care and cleanings, both traditional silver or tooth-colored fillings, oral cancer screenings, extractions or wisdom teeth removal, treatment of periodontal or gum disease, dentures and partials, root canals and bite or mouth guards.

The Raleigh Comprehensive and Cosmetic Dentistry office also offers sedation services. Dentists who offer these services must be certified to administer and perform oral conscious sedation.

"In addition to our regular dental services, we're pleased to be a Raleigh sedation dentist. Many of our patients are uneasy about visiting the dentist and our sedation services help them relax. Sedation has been commonly used for decades for medical procedures less invasive than dental work. There are no needles involved and instead patients just take a pill that allows them to feel relaxed and comfortable. It's another way we make dental visits easier for our patients," said Dr. Williamson.

About Raleigh Comprehensive and Cosmetic Dentistry: Raleigh Comprehensive and Cosmetic Dentistry (<http://www.raleighdentist.com/>) is the office of Tres Williamson, DDS located in Raleigh, NC. Dr. Williamson offers all types of dental work, like routine visits, cosmetic services and sedation services for uneasy patients.
