

## **US Medical Supplies Introduces Independent On-Site Customer Reviews**

*US Medical Supplies Announced today the introduction of on-site independent product reviews. These reviews will allow customers to see an unbiased description of the products and their features. They will be available for all products offered by US Medical Supplies.*

September 23, 2008 (FPRC) -- US Medical Supplies, the number one supplier of home mobility products, is pleased to announce the introduction of independent product reviews, which will be available on all of their products. The reviews are powered by Power Reviews, which is a company that is dedicated to helping consumers make informed purchasing decisions.

These reviews will be completed by customers who have bought and used the products that they are reviewing. This will provide an unbiased description of the products that can be used as part of the customer's decision making process. The reviews will be available for all of the products offered by US Medical Supplies and will be available on site or by visiting [Buzillions.com](http://Buzillions.com).

The introduction of product reviews will ensure that the customer can receive a better understanding of the products and their possible applications, before making a purchase. Jeff Sheffer, CEO of US Medical Supplies, said, "We are very excited about the addition of product reviews and are confident that they will provide a very powerful tool for the customer. We chose Power Reviews after careful consideration to implement this program, because they have a reputation of placing the customer first."

US Medical Supplies has nearly a decade of experience in the mobility industry and is headquartered in Raleigh, North Carolina. They offer a complete line of mobility products including lift chairs, stair lifts, mobility scooters, electric wheelchairs, exercise and fitness equipment, and much more. In addition to providing home medical equipment, they also offer over 5000 different types of medical supplies.
