September 25, 2008 (FPRC) UK - Crawley, West Sussex -- Many people are worried that the Credit Crunch is making their jobs and pensions less and less secure. As a result, more and more people are looking for new wealth creation opportunities to escape the rat race and ensure a secure financial future – and Club Entrepreneur is rising to this challenge.

Author of five books on Entrepreneurship and Club Founder, Alex McMillan says 'Club Entrepreneur grew out of my experience and knowledge from interviewing hundreds of successful entrepreneurs. Our aim is to show members how to develop successful businesses using proven strategies and principles.

'The theme of Saturday's event is FOCUS – how to focus on what you want and on how to get it – and our speakers include sportsmen, businessmen and a successful Young Entrepreneur'.

After two decades at the top of one of the most physically and mentally grueling sports, former IBO light welterweight world champion Billy Schwer is now a personal mentor, executive coach and motivational speaker. An engaging, honest and intelligent speaker, Billy will share his secrets on how to achieve our dreams – and how to put Desire, Determination and Discipline to our service.

Sensei Andy Skates is an entrepreneur who has mastered the art of focus so essential to entrepreneurs, through becoming a 3rd Dan Karate Instructor. Andy will explain the value of focus for Entrepreneurial success – and to make sure they focus, attendees will be invited to join in some Karate action!

Founder of www.TheWebBizNetwork.com, John Thornely describes himself as a 'couch potato' in comparison with Billy and Andy! However, as a prolific entrepreneur and property investor, he notes that "even wealthy individuals are wondering whether the Credit Crunch will leave them with sufficient finances to see them through retirement.

'We show people how to use the power of the Internet to rapidly build financial freedom, so that they can focus on enjoying life'. John will be showing attendees how to use focus to start an Internet business – for around the cost of a postage stamp a day!

At just 17, Louis Frankland is the youngest member of the Club! However, he has been running profitable businesses for 6 years and he really knows how the Internet works – he makes money from it without having to put any up front! He will show attendees how to market their business with Search Engine Optimisation and how to utilise the power of Social Networking sites.

With wealth-creation experience as impressive as this, places at Club Entrepreneur's events go quickly.
