

Titanium-Jewelry.com Adds Orange County Choppers Collection Of Mens Jewelry

OCC Titanium Rings, Black Titanium Rings, Bracelets, Key Chains, & Necklaces Now At Titanium-Jewelry.com

(Modesto, CA) September 30, 2008 – Titanium-Jewelry.com, a leading online retailer of mens wedding bands, tungsten rings, titanium rings and unique contemporary jewelry designs for men and women, today announced the addition of Orange County Choppers Jewelry, a unique line of mens titanium jewelry.

Titanium-Jewelry.com is pleased to offer this rugged and seductively masculine line of titanium rings, bracelets, necklaces and key chains. Manufactured by Spectore, the powerhouse behind Edward Mirell jewelry, the Orange County Choppers jewelry brings forward a contemporary and custom look to men's jewelry. "We chose Spectore to build our line of jewelry because, like us, they know how to make metals work in a way that no one else does. OCC has built a brand based upon customized capabilities...building bikes that don't look like everyone else's or even act like anyone else's," said Orange County Choppers Founder, Paul Teutul, Sr.

Customers will find this new line to be sleek, bold and unique. Constructed with the official OCC logo, the Orange County Choppers Jewelry features the bold infusions of durable titanium, black titanium, stainless steel and sterling silver designs that match the unique quality and style that has made the custom motorcycles so famous.

"We're a bunch of guys using our imaginations to create a look that is unlike anyone else's...and our jewelry is the same. Titanium mixed with other metals makes our look unique - and it's a metal that's so incredibly cool," Teutul concluded.

Titanium-Jewelry.com recognizes the demand from consumers for more modern, urban and contemporary jewelry designs for men. Mens jewelry is a market segment that continues to grow as new styles emerge and designers offer consumers more contemporary selections of urban yet sophisticated pieces. In addition to new lines of mens jewelry, Titanium-jewelry.com provides mens wedding bands and jewelry for men and women, constructed from the highest quality materials and manufacturing techniques available.

"As our newest addition of titanium rings, the OCC Collection brings the hottest designs to customers looking for quality and style that caters to a masculine appeal," stated Ron Yates, founder of Titanium-Jewelry.com. "The addition of the OCC Collection provides shoppers new contemporary jewelry designs that emulate the same distinct quality and captivating lines of the famous Orange County Choppers," concluded Yates.

Titanium-Jewelry.com strives to stay at the forefront of contemporary jewelry trends by offering shoppers the benefit of choice, quality and unique styling for mens wedding bands, titanium rings and tungsten rings for men and women. Now, contemporary jewelry fans and chopper enthusiasts have even more to choose from when looking for comfort and rugged durability. About OCC Choppers

Paul Teutul, Sr., metalworker by trade and founder of Orange County Choppers, Inc., first began his business of building custom choppers out of the basement of his home in Montgomery, NY. With the creative help and following of his oldest son, Paul Jr., the two were soon on their way to the top with the success of Paul Sr.'s first bike, 'True Blue' at Daytona Biketoberfest in 1999. From that point on, Paul Sr. knew he had something and established Orange County Choppers, Inc. that same year.
