The SCJP certification is awarded by Sun Microsystems®. The practice exams offered by CertExams.com include 250+ questions with detailed answers to prepare an aspiring candidate thoroughly for the actual certification exam.

November 4, 2008 (FPRC) -- CertExams.com, a leading online exams provider has released Java SCJP (short for Sun Certified Java Programmer) practice tests. Current Java Certification version 6.0 is intended for candidates who have experience in Java programming edition 6.0. The online exams offered by CertExams.com include 250+ questions. The question types include multiple choice single select, multiple choice multi select, drag-n-drop, true/false, and exhibit based questions.

The advantages of a simulated exam are:

- Ability to gauge one's preparedness to take actual certification exam
- To prepare for the exam objectives thoroughly from a different perspective (from the study guides)
- To acquaint oneself with actual exam environment (such as timed test, lab practice, scenario based questions, etc.)

SCJP is a prerequisite to many other Java certifications like SCWCD etc. SCJP 6.0, exam code CX-310-065, is the latest certification exam from Sun Microsystems, Inc, is for programmers experienced using the Java programming language. SCJP 6.0 is aimed at the JDK 6.0 release of Java.

Other certifications available from Sun Microsystems® include:

1. Sun Certified Java Developer (SCJD)
2. Sun Certified Business Component Developer (SCBCD)
3. Sun Certified Developer for Java Web Services (SCDJWS)
4. Sun Certified Web Component Developer (SCWCD)
5. Sun Certified Mobile Application Developer (SCMAD), and
6. Sun Certified Enterprise Architect (SCEA)

Sun also offers an associate level certification called Sun Certified Java Associate (SCJA)

The website is currently offering only SCJP6 certification online exams. More will be added soon. Register for a trial SCJP Exam or read more about SCJP 1.6 Certification exams at
