

SimulationExams.com CCNA Certification Practice Exams - Revised

SimulationExams.com, a leading certification tests provider, released a revised version of Cisco CCNA 640-802 practice tests. The practice tests provide a simulated test environment for candidates before appearing for the actual certification exam.

November 9, 2008 (FPRC) -- SimulationExams.com, a leading certification practice tests provider has released a revised version of Cisco CCNA practice tests. CCNA is intended for candidates who have experience in configuration and troubleshooting networks using Cisco routers and switches. The practice tests offered by SimulationExams include 300+ questions that provide a simulated test environment for candidates and facilitate taking final exam with confidence. CCNA Certification is awarded by Cisco Systems® on successful completion of qualifying exam(s).

The advantages of a simulated exam are:

- To prepare for the exam objectives thoroughly from a different perspective (from the study guides)
- Ability to gauge one's preparedness to take actual certification exam
- To acquaint oneself with actual exam environment (such as timed test, lab practice, scenario based questions, etc.)

The exam objectives covered by CCNA practice tests include the following:

1. Describe how a network works
2. Configure, verify and troubleshoot a switch with VLANs and interswitch communications
3. Implement an IP addressing scheme and IP Services to meet network requirements in a medium-size Enterprise branch office network.
4. Configure, verify, and troubleshoot basic router operation and routing on Cisco devices
5. Explain and select the appropriate administrative tasks required for a WLAN
6. Identify security threats to a network and describe general methods to mitigate those threats
7. Implement, verify, and troubleshoot NAT and ACLs in a medium-size Enterprise branch office network.
8. Implement and verify WAN links

Other practice tests offered by SimulationExams.com include the following:

1. CCNP Certification
2. Juniper Junos Simulator
3. CIW practice tests
4. Sun SCJP practice tests, and others
