*Blinds Express, an online division of Window Flair, offers a large line of Comfortex Blinds. The company has many different window coverings and area rugs available to customers around the country.*

November 11, 2008 (FPRC) -- ROCHESTER, NY -- Blinds Express, a company that sells custom window treatments online, announces it has added even more Comfortex blinds to its inventory.

Customers can choose from over 200 different types of window coverings from the Comfortex line. Some of the available products from Comfortex are 2 and 2.5 inch faux wood blinds, roman shades, double and single cellular shades and many others.

Many of the Comfortex products are available in room darkening models and some are insulated to keep heat from escaping out the windows during the winter months. The window coverings are available in a variety of colors, depending on the type.

"With rising fuel and energy costs, now is a great time to buy a new set of Comfortex window blinds. The Comfortex Symphony 3/8 Double Cell cellular shades can actually keep the home warmer in the winter by trapping a layer of air between the cells," said Thomas Williams, of Blinds Express ([www.blindsexpress.com](http://www.blindsexpress.com)).

Blinds Express is a division of Window Flair, a retail store selling window coverings, flooring and carpet for 39 years in Rochester, NY. In addition to Comfortex window coverings, Blinds Express also sells shades, blinds and shutters by Hunter Douglas, Levolor, Graber, Bali and area rugs by Shaw and Colonial Mills. To make online shopping simple, Blinds Express.com's intuitive search feature allows customers to enter the dimensions of their window, as well as the type of covering desired, then returns a list of highly targeted options.

"We'll make every effort to go out of our way and our customers know they can come to us with any questions regarding window blinds. We even have a network of pre-screened contractors that can professionally install your custom window coverings so the entire process from ordering to installation can be as easy as possible," said Williams.
