

## Leading Irish Golf Hotel Plans for 2009

### *European Tour Host Glasson Hotel and Golf Club Tees Off for 2009*

December 15, 2008 (FPRC) -- Glasson Hotel and Golf Club, one of Ireland's leading Golf hotels have revealed ambitious plans for the 2009 tourism season. Located in the village of Glasson near Athlone in the centre of Ireland, Glasson Hotel and Golf Club is a 4 star hotel and golf resort.

According to Manager Gareth Jones "we have just recently implemented major changes to our website Hotels in Athlone and now intend pursuing a very aggressive online strategy in the coming months. We are very aware that increasingly overseas visitors to Ireland as well as those within the domestic market are doing their research online before making a final decision on their preferred destination. We want to ensure that Athlone Hotels becomes more visible for visitors seeking to combine luxury hotel accommodation with some of the best golf available anywhere in Ireland. Our proximity to Dublin in particular makes Glasson Hotel and Golf Club an ideal location for those seeking more tranquil surroundings within a relatively short distance from anywhere within Ireland" continues Jones.

Glasson Hotel and Golf Club boasts 65 spacious bedrooms with magnificent views of either the lake or golf course. Fine cuisine, expertly-prepared with the best of local produce in the Killinure Restaurant, woodland scenic walks, local historic attractions, old world villages and Ireland's No.1 fashion retail centre are situated nearby making Glasson Hotel the perfect location to relax and unwind. This family-run luxury hotel is the ideal get-away for business or pleasure.

Glasson Hotel and Golf Club played host to the Challenge of Ireland Golf Tournament in August 2008 which has raised the profile of golf in Ireland on the International stage and drew competitors from as far afield as Australia and Scandanavia. The goal is now to build on this positive exposure coupled with increasing visibility for the website on the leading search engines. Irish SEO firm TransSolve.com have been contracted to assist in these ongoing efforts.
