

## **S.T. Ridge Launches Kids Furniture Website with OnlineKidsRoom.com.**

*S.T. Ridge, LLC, launch a kids furniture and gift web site called OnlineKidsRoom.com for parents and kids alike.*

January 22, 2009 (FPRC) -- S.T. Ridge, LLC, a North American family web site company, announced the grand opening of their kids furniture and personalized gift web site OnlineKidsRoom.com.

The online web store was created to connect interested parents and grandparents with a selection of furniture and personalized gifts specifically for kids. Located in San Antonio Texas, USA, OnlineKidsRoom.com is preparing a clear and easy-to-use approach for purchasing furniture in an online environment.

When asked about the launch of the new web offering, S.T. Ridge manager Steve Harp discussed his excitement for the OnlineKidsRoom.com web site and product line.

"As parents, my wife and I would search not only the Internet, but also local and regional retailers in an effort to find unique kid furniture, room decor, and especially personalized gifts. We knew great products existed, but the challenge was finding them, particularly at reasonable prices. At that point we realized we wanted to launch a website geared towards parents looking for the same items we were, namely quality wooden furniture, room decor, and personalized gifts for their children."

Steve continued, "we are looking forward to make OnlineKidsRoom.com the one stop shop for parents and searchers looking for kids room items at great value. Whether you are looking for a personalized toy box with your child's name, a toddler cot, kids tables, chairs, desks, or even a piggy bank, we'll have it in one place."

In an increasingly web savvy market, and with the looming economy before us, OnlineKidsRoom provides a valuable space to browse lasting furniture and toy options.

The official launch occurred January 1st, 2009, and is one of numerous new family oriented web site in the S.T. Ridge web line.
