

U.S. Medical Supplies Now Offers Extended Warranties on All New Pride Lift Chairs

U.S. Medical Supplies guarantees service with in-home parts and labor for up to three years on all new Pride lift chairs sold. A one-year warranty is offered as a standard, and the new options for a 2- or 3-year warranty are very affordable.

February 23, 2009 (FPRC) -- U.S. Medical Supplies, a discount online retailer of thousands of medical and mobility products, has announced that it will now offer 2- and 3-year warranties with all new lift chairs from Pride. By default, all new Pride lift chairs come with a one-year warranty that covers parts and service, and they will even come to your home for the service call. Now, customers may opt to extend that same guarantee of service with a 2- or 3- year warranty on their new lift chair.

U.S. Medical Supplies believes that this level of service goes above and beyond most customers' expectations. For customers that like to have extra peace of mind when they make a purchase, the extended warranty will provide just that. U.S. Medical Supplies understands the importance of providing that guarantee on its products, so that customers can safely expect the product to last.

U.S. Medical Supplies is excited to offer this new option for its customers. Pride is an industry leader and their lift chairs are among the most reliable in the industry, but having the warranty to back up any potential mechanical difficulty goes a long way toward earning customers' confidence.

The vast majority of lift chairs will continue to operate safely and smoothly far past the 3-year mark, so U.S. Medical Supplies decided that the fee for the 2- or 3- year warranty should be very affordable. Vice-President of Sales Tim Ziehwein explains this decision: "Just as nobody wants to pay too much for an insurance policy they probably won't need, our customers shouldn't have to pay too much for a guarantee that our products will last them at least three years."

As lift chairs continue to rise in popularity among seniors and semi-retired boomers, U.S. Medical Supplies has grown significantly and has positioned itself as a top retailer of lift chairs and other mobility aids. Pride is a top manufacturer of lift chairs that has earned a reputation for quality and style. In addition to lift chairs, U.S. Medical Supplies also offers other types of mobility aids, thousands of discounted medical supplies, and other related products.
