February 26, 2009 (FPRC) -- New Memphis, IL – An inspirational new book has been written that will help people whose faith in God has been challenged during these turbulent times. The author of the book is Mark Beimfohr and the title is: 'God the Bible Religion'. An ordinary citizen has had his faith grow stronger with Gods help. These experiences are written in the book. If you are struggling with your faith in God for any reason at all then his book was written for you!

There are stories in the news almost every day telling of how people are suffering from credit card debt, losing their homes, their retirement funds depleted, or they lost their job. These are very difficult times!

'God the Bible Religion' was written about true life experiences of how God has helped one ordinary man to cope during these tough times. His faith has gained strength from these experiences!

God dented my old Ford pick up truck! Yes. It is not like he reached down and hit or kicked the truck but it is dented. Read the book and discover the entire story about this experience with God.

These are true stories written about his experiences in church, with religion, and through divorce. I have felt the presence of God and I want to share these stories with you.
