

House Of Memory Now Offers Memory For Computer Models Including Kingston Memory, Samsung Memory

Online computer memory superstore House of Memory, now offers high quality Samsung and Kingston memory for computer makes and models of all types.

March 11, 2009 (FPRC) -- LOS ANGELES, CA -- House of Memory, a premier online computer memory superstore, has announced that its expansive product offering will now include the high quality, brand name memory products Kingston memory and Samsung memory. Both Kingston and Samsung brand memory for computer are available for a variety of different Apple and PC models.

Based in Southern California, House of Memory founder Azad Feliv has been selling high quality, premium brand memory products to consumers worldwide since 1995. By offering a wide selection of hard drive, flash memory, and laptop computer memory upgrades, House of Memory is poised as one of the leading memory resellers online today.

With a commitment to providing quality products at competitive prices, House of Memory also strives to offer exceptional customer service to help make each buying experience an enjoyable one. The firm not only offers free shipping and lifetime warranties on all products, but also guarantees the compatibility of each memory order as well that each product is made from new, not refurbished, materials.

"Our overall commitment to excellence has positioned House of Memory as one of the premier online resellers of computer memory products. By offering the highest quality memory available, including Samsung and Kingston memory, at competitive prices, we are simply a one-stop shopping source for all customers to enjoy," said Azad Feliv, founder of House of Memory (<http://www.houseofmemory.com>).

Additionally, House of Memory offers an easy to use online search feature to ensure that all customers are able to find the best memory available, including the new Kingston memory and Samsung memory products, quickly and easily. For added convenience, users select from three different search options, including by manufacturer, model number and part number. Based on the search criteria entered, users are then provided with a list of compatible memory products to meet their existing computer needs. Lastly, specifications of each memory product are supplied in a user-friendly manner so customers can easily compare the benefits of each available product.

"At House of Memory we feel it is important to give customers as much information as possible about the many options for memory choices. By carrying a wide variety of memory products, from house brands to more upscale brands like Kingston and Samsung memory, we are able to confidently meet the needs of each and every customer," says Feliv.

About House of Memory: House of Memory (<http://www.houseofmemory.com>) provides computer memory solutions to customers around the world. The company's expansive product offering includes server, printer, and desktop and laptop computer memory products available in a variety of high quality brands, including Kingston memory and Samsung memory. Dedicated to quality customer service and satisfaction, House of Memory offers a 100% lifetime warranty and compatibility guarantee.
