

SonyVaio4U.com Unveils Exciting Laptop Collection

At last a one-stop shop of new and used computers for all budgets and tastes

April 13, 2009 (FPRC) -- SonyVaio4U.com is an online one-stop centre for laptops, desktops, servers and accessories. SonyVaio4U.com understands that in modern times customers don't have time to shop around for hours. They want to see a large selection of affordable, quality products in one place.

SonyVaio.com is proud to announce a new line of computers to its customers. Specialising in Sony Vaio laptops it is easy to find the product you are looking for without fuss. Unlike many sites, new and used laptops are both listed to suit all budgets and needs.

The selection includes the Core 2 Duo T7250 2GB and 3GB Ram Hard Drive with Vista Premium available in pink, blue, metallic grey, red or black. High-resolution graphics make this an ideal laptop for any gamer, DVD watcher or business person.

The work horse behind the display is the Nvidia Ge force graphics card and with 256 Mb of memory as standard, the graphics card is more than capable of running the most demanding of programmes, including Vista, without tapping into the main RAM.

3D sound effects combined with blu-ray technology increases DVD performance. The Intel 7250 processor with 2GHz of DDR2 Ram and Intel Core Duo means you don't have to wait long for downloads.

Also, Wifi reception, made possible from the built-in antenna, and 320Gb of hard drive mean business people can access and download graphics, photographs or film while on the move.

One customer recently remarked 'Wifi reception of the built on antenna is exceptional. During the course of my work, I do use Wifi hot-spots on a regular basis. As a direct comparison to my old laptop, the signal strength obtained at transfer speeds is much better with my Sony.'

SonyVaio4U.com is a recently established company that provides excellent service and fast shipping wherever you are in the world.
