

Best On Key West Now Offering Key West Diving Instructional Courses

Key West diving instruction is now available through Key West tour operator, Best On Key West. Depending on their current skill level, guests can choose from a resort course, open water certification and advanced certification.

June 1, 2009 (FPRC) -- KEY WEST, FL - Premier Key West tour company, Best On Key West, recently announced it is now offering a selection of Key West scuba diving instructional courses. Guests of all skill levels can benefit from the scuba courses, which are led by professional Key West diving instructors.

"At Best On Key West, we are committed to helping people achieve the vacation of their dreams, and Key West scuba diving is often top of the list of vacation experiences. Adding scuba instruction to our expansive list of tour services was a natural extension of our business. Now we can help even more vacationers take part in the beauty of the underwater world," says Chris Gardner of Best On Key West.

Best On Key West's Dive-in-a-Day resort instructional diving course is ideal for travelers who have never experienced scuba diving before, but don't want to miss out on the amazing diving offered in the waters off Key West. The resort course includes two hours of pool instruction, allowing new divers to get the feel of the equipment in a safe and secure environment. After all divers are comfortable, they are then able to test their new skills while diving Key West's world-renowned coral reef. All participants receive two one-tank dives on the reef, and the low instructor to student ratio ensures that all students enjoy a comfortable and beneficial first diving experience.

In addition to the Dive-in-a-Day resort instructional diving course, Best On Key West also offers visitors the option of traditional open water certification. During this four-day instructional course, visitors will learn how to dive safely and properly in depths of 60 ft. while using state-of-the-art dive equipment. The full course includes initial pool work, as well as four guided dives to the beautiful Key West coral reef. The certification earned in this course allows students to dive in destinations around the world.

For visitors seeking even higher certification, Best On Key West now offers advanced diving certification courses. With the certification earned in the advanced course, students will learn how to safely dive at night, as well as in deeper depths up to 120 ft. The two-day instructional course features five separate dives, which are a mix of both shipwreck and coral reef dives. Students of this course also select an area of specialization as a boat diver, underwater naturalist or peak performance buoyancy expert.

Along with its instructional dive courses, Best On Key West offers an expansive selection of premier Key West tours and excursions. From glass bottom dolphin watch and snorkel tours to kayaking and parasailing adventures, Best On Key West provides memorable vacation tour packages to complete any Key West vacation.

"Scuba diving is an amazing and thrilling underwater adventure, and diving in Key West is some of the best in the world. We are proud to help guests achieve higher diving certifications so they can

safely enjoy all that the beautiful ocean has to offer," says Gardner.
