

Women's Bras and Camisoles: Find Your Comfort

With the growing popularity of shopping on the Internet, a new store offers comfort and privacy to purchase women's bras and camisoles online.

June 2, 2009 (FPRC) -- ClassyWomensBras.com, a fresh and comfortable online store to shop for women's bras, offers a wide variety of styles and fits for all shapes and sizes, including full and hard-to-fit figures. Besides providing customers with a satisfying selection of comfortable and reasonably priced name brand bras, a driving focus is also placed on making women feel wonderful while still being supported.

Angie Nelson, creator of ClassyWomensBras.com, said, 'I know firsthand how grueling, expensive, and uncomfortable it can be to shop for bras at your local department store. I developed Classy Women's Bras because I was frustrated spending so much time trying to come across the right fit while not spending my kid's college fund. I wanted to create a place where women could have access to a wider assortment of name brand bras that cost less.'

Nelson also feels passionately about providing a website where women (and men) can now shop for women's bras from the comfort of their home and have a trustworthy place they can turn to repeatedly. No more sorting through bins, sifting through racks, or standing in long lines feeling pressured into paying too much for lavish accessories they don't want or need.

'I'm so passionate about helping women get that perfect bra that I'm even willing to investigate outside our current assortment to help you find it. So in the unlikely case that you can't find what you are searching for at ClassyWomensBras.com, send me your request and it's probable I can get it for you,' says Nelson.

When shopping at ClassyWomensBras.com, it's easy to get exactly what you are looking for. Each bra has it's own picture, depiction, and clearly marked price. It even includes guidelines on how to properly wear a bra and how to figure out your true bra size so you can be self-assured in your purchase.
